I'm owner of a small corporate and supervise 4 assistants. Developed and Implemented strategies for the company. I offered "*Como Ser Autosuficiente Con La Computadora*", PC Training in the products: Microsoft Windows, Microsoft Office, and "*Empresarismo*". Also, I offered to my small clients the services of a System Manager that include: Database Manager (Microsoft SQL Server, Oracle Database, and MySQL Database), OS Manager (Microsoft Servers, Linux Server), LAN Manager (hardware and software), Internet Administration, Security Manager, and Hardware Manager (repair and/or maintenance). Besides, I offered application development (Microsoft Access in .mdb (old access) and .adp (project), Visual Basic for applications, Delphi, Oracle) in the fields of Business Office Automation, and Science Research. Also, I offered Helpdesk services in the fields of Software Maintenance and installation, Hardware Maintenance and installation, Employees training and support.

CONSULTANT

Years Employed (1998 - 2000)

Business Systems Consulting, Inc.

I designed systems for the use of the employees for automation and efficiency of the office. I analyzed the oral statement given by the user. I developed the logic for the programs. I codified the programs into ACCESS, DELPHI, ORACLE, and others minor languages. In addition, I tested the programs; implemented the applications; and trained the end-users with the new applications systems. . Also, I did the duties of a System Manager. I was assigned to the pharmaceuticals *Schering-Plough Products Inc.*, and *BASF de Puerto Rico Inc. (Cyanamid, Inc.)*, and to help *Sense Software Systems, Inc.* a developer company with some of their projects.

ANALYST-PROGRAMMER OF ELECTRONIC SYSTEM

Years Employed (1990 - 1998)

Administración de Sistemas de Retiro (ELA)

I designed systems for the use of the employees for automation and efficiency of the office. I analyzed the oral statement given by the user. Develop the logic for the programs. I codified the programs into ACCESS, ORACLE, and others languages. In addition, I test the programs; implement the applications; and training the end-users with the new applications systems. Also, in OpenVMS I did the duties of a System Manager and developed. I had a programmer under my supervision.

PROGRAMMER OF ELECTRONIC SYSTEM

Years Employed (1987 - 1990)

University of Puerto Rico – Rio Piedras Campus – Register Office

I designed systems for the use of the employees for automation and efficiency of the office. I analyzed the oral statement given by the end users. I developed the logic for the programs. Codified the programs into DATAEASE, DBASE3+, PASCAL, ASSEMBLER, and others languages. In addition, I tested the programs; implement the applications; and training the end users with the new applications systems.

COMPUTER RESEARCH ASSISTANT

Years Employed (1983 - 1985)

University of Puerto Rico – Rio Piedras Campus – Physics Department – Dr. Daniel Altschuler office

I designed many programs to be used in scientific analysis. I analyzed the oral statement given by the scientific user. I developed the logic for the programs. I codified the programs into PASCAL, FORTRAN, and others languages. In addition, I tested the programs; implemented the applications; and training the scientific personnel with the new applications systems. I collected and reduced data. We wrote and published research.
